China International  
Steel Construction Congress 2005

## INVITATION

**China's** steel construction industry currently entered a substantial development period, with its body structure for manufacturing amounted to 10 million tons, and production value of over 8 billion USD. Large amount of national investment, sustainable development of China's construction industry, relevant stimulant policies from China's central government also pushed its further development.

**To** narrow the gap between China and other advanced countries, China urgently needs to introduce advanced product, equipment and technology. China International Steel Construction Congress plus the **5th International Steel Construction Expo 2005** (CONSTEX 2005) will gather steel structural producers, trade dealers, company decision makers, government officials, and relevant professionals from designing, building, contracting, consulting and service sectors to make in-depth discussion and exchanges on the occasions.

**Thus** we sincerely invite global steel construction designers, producers and equipment manufactures, installation companies, science and research institutions, media and consulting companies to participate in the congress.

 Yang Zunqing  
Deputy Secretary General of CISA

 Liu Wanzhong  
Deputy Secretary General of CSCS
